National Graves Registration Instructions & Form

Please Read These Instructions

The National Graves Registration Project is a long-term project to create a single collection of grave locations of Civil War soldiers and veterans. This collection will provide information for research pertaining to soldiers and regiments; grave restoration, clean up and marking projects; and Memorial Day programs.

The national project requires the support of members and non-members alike. Research in town halls, libraries, historical societies, archives and veterans organizations will help collect information already compiled by others. Additional research of primary sources, such as newspapers, Grand Army of the Republic proceedings and the 1890 veteran census, will provide lists of known soldiers, and possibly death and interment information. Cemetery visitation also provides the opportunity to collect information. Both private and military markers can provide important personal and service information. Working with a cemetery's interment records also helps identify the exact grave location of veterans and increases the opportunity to record unmarked graves.

After the collection of information, the recording process is completed by using this form to enter the information into the national database. When completing this form, please provide as much information as possible and write clearly and legibly. The name of a cemetery should be included on each form. When multiple forms from one cemetery are being sent, the address of the cemetery only needs to be completed on the first form (please be sure to attach the forms together or send them in one envelope.) If additional space is needed, please attach extra sheets to the form they supplement. Photographs of graves, cemeteries or veterans can be included with the forms.

Because this project is intended to record the burial sites of Civil War soldiers and veterans, only those persons whose military service is known should be forwarded to the National Graves Registration Database. This information can be found on headstones, through family history, Grand Army of the Republic membership, or other documentation. Please consider researching any person whose age may indicate possible Civil War service, so they may be included in this project.

SPECIAL NOTES ABOUT FIELDS ON THE FORM.

- *Civil War Service* - Please indicate if the Civil War veteran was Union or Confederate. Confederate veteran information will be forwarded to the Sons of Confederate Veterans.
- *Age* - Only enter this field if it is transcribed from a headstone or if verified age at time of death is known.
- *Misc. Info.* - Please enter any additional information about a veteran's military service (cause of death, wounded, prisoner, meritorious service, etc.); place of death / birth; or any additional information about the cemetery needed to locate the grave.
- *Service* - List the regiment, state or federal, branch (ART, INF, CAV, etc.), company/battery/troop/ship, and rank (highest held). For service in federal units or service in a regiment from other than the soldier's home state, please enter state of enlistment.

Standard abbreviations are included with these instructions. Please use those listed.

Searching Cemetery interment records may help *find* veterans with unmarked graves!

PLEASE WRITE CLEARLY.

A Microsoft Excel spreadsheet including headings compatible with grave registration data collection and instructions for its use may be obtained from the National Graves Registration Officer. This is particularly useful to maintain a personal record of submitted registrations and ongoing cemetery surveys.

Any questions about this project can be sent to the National Grave Registration Officer.

The current National Graves Registration Officer is:

Bruce D. Frail

19 Briar Point Avenue

Coventry, RI 02816-5601

(401) 823-9898 / E-mail suvcw_ngro@verizon.net
